

The Secret of the Stars

Use this card to identify the constellation you see in the game

FULL NIGHT SKY MAP

KEY STARS IN ORION

- Betelgeuse**
Top-left shoulder, very bright
- Bellatrix**
Top-right shoulder
- Three Belt Stars**
Middle row, perfectly aligned
- Rigel**
Bottom-right foot, very bright
- Saiph**
Bottom-left foot

THE DASHED LINE

The vertical dashed line shows where the constellation is split between Player A and Player B.

Describe your half — do **not** say the name. Work out the full shape together.

HOW TO IDENTIFY

Start with the **three belt stars** in a straight row — easiest landmark.

Then find the bright stars above (shoulders) and below (feet) to confirm the hourglass shape.

WHAT EACH PLAYER SEES

Player A · Left Bench (solid border)

- You see the **left half** of the constellation:
- A very bright star top-left
 - A slightly smaller star to its right
 - One belt star in the middle-left
 - A foot star at the bottom-left

Describe positions to Player B — do not say the name.

Player B · Right Bench (dashed border)

- You see the **right half** of the constellation:
- A very bright star bottom-right
 - Two belt stars in a row on the right
 - Stars going up the right side
 - A star toward the top-right

Describe positions to Player A — do not say the name.

SIX CONSTELLATIONS — IDENTIFY YOURS FROM THE MAP ABOVE

Orion

The Hunter

3 belt stars in a row · Two very bright stars (top-left and bottom-right) · Hourglass shape

Cassiopeia

The Queen

Clear W or M shape · Five stars in a zigzag · No single very bright star

Gemini

The Twins

Two equal bright stars at top (Castor & Pollux) · Two parallel columns going down

Taurus

The Bull
