◆ MARKER 3 · LEFT BENCH (PLAYER A)

Attach to back of LEFT bench · Stage 3 Player A

◆ MARKER 4 · RIGHT BENCH (PLAYER B)

Attach to back of RIGHT bench · Stage 3 Player B

◆ HOW TO USE THESE MARKERS

Step 1 — Print: Print this page in colour at full A4 size. Cut out each marker card.

Step 2 — Waterproof: Laminate or place in a clear zip-lock bag to protect from outdoor conditions.

Step 3 — Upload to MindAR: Go to hiukim.github.io/mind-ar-js-doc/tools/compile, upload all 4 marker images in order (Pine Tree first, then Stump, Bench A, Bench B), download the `targets.mind` file.

Step 4 — Upload to GitHub: Add `targets.mind` to your garden-guardian repository alongside `index.html`.

Step 5 — Place on site: Use waterproof tape to attach each marker to its location. Hold phone 30–60cm away when scanning.
