

◆ GAME RULES

GARDEN GUARDIAN

THE GUARDIAN'S CALL

The fairy's home needs your help

A magic storm has swept through the garden, scattering the fairy village's enchanted fragments across three secret locations. Two guardians must work together to retrieve all the fragments and rebuild the home before sunset.

HOW TO PLAY

- 1 Each player scans different markers — you see **different clues** and must describe them to each other
- 2 Each wrong answer costs the fairy one energy star
- 3 If all stars are lost, restart from the beginning. Complete all three stages then meet at the centre of the lawn

Fairy Energy · Full at the start

◆ STAGE ONE

STARTING POINT · GIANT SEQUOIA TRUNK

THE ANCIENT TREE'S SECRET

In the late afternoon, the ancient tree's shadow points toward a hidden truth

This ancient sequoia has stood here for centuries, witnessing the birth of the fairy village and the arrival of the storm. A secret lies hidden in the direction of its shadow...

PLAYER A · YOUR CLUE

- 1 Scan this card with your phone — an AR fairy appears and shows you a mysterious symbol
- 2 Describe the shape of the symbol to Player B
- 3 Follow Player B's directions, walk along the shadow's path to the endpoint and scan the ground marker

Reward: Crystal Fragment unlocked · Stage Two clue revealed

◆ STAGE TWO

DEAD TREE STUMP · HOLLOW CENTRE

MEMORY OF THE STORM

This fallen tree remembers which direction the storm came from

This tree was struck down by the magic storm, but its spirit still lingers in the stump. Scan it, listen to its whisper — the direction the wind came from holds the answer...

PLAYER B · YOUR CLUE

- 1 Scan the marker inside the hollow — the AR stump trembles and plays a fairy voice message
- 2 The voice tells you the direction the storm came from — describe it to Player A
- 3 Player A selects the correct direction on their compass — both confirm together to unlock the fragment

*Reward: Mushroom House Fragment unlocked ·
Stage Three clue revealed*

◆ STAGE THREE · PLAYER A

LEFT BENCH · BACK OF BACKREST

THE LEFT HALF OF THE SKY

This bench has witnessed countless nights — it only remembers half the stars

Walk around to the back of the bench and scan the hidden marker. An AR constellation map appears — but only the left half. You must describe what you see to Player B...

PLAYER A · YOUR TASK

- 1 Go around to the back of the bench and scan the marker on the middle crossbar
- 2 You see the left half of a constellation — describe it to Player B (no showing your screen!)
- 3 Together, guess the full constellation name and both type the answer at the same time

*If answers don't match, you lose one energy star —
stand back-to-back and describe again*

◆ STAGE THREE · PLAYER B

RIGHT BENCH · BACK OF BACKREST

THE RIGHT HALF OF THE SKY

Two benches face each other, each guarding half the secret of the night sky

Walk around to the back of the bench and scan the hidden marker. An AR constellation map appears — but only the right half. Listen to Player A's description and piece the picture together...

PLAYER B · YOUR TASK

- 1 Go around to the back of the bench and scan the marker on the middle crossbar
- 2 You see the right half of a constellation — listen carefully to Player A at the same time
- 3 Together, guess the full constellation name and **both** type the answer at the same time

If answers don't match, you lose one energy star — stand back-to-back and describe again

◆ FINAL STAGE

CENTRE OF THE LAWN · BOTH PLAYERS MEET HERE

REBUILDING THE VILLAGE

All three fragments gathered — the miracle the fairy has been waiting for is almost here

You've recovered all the magical fragments. Now both guardians must walk to the centre of the lawn and arrange the three fragments in the correct order — the answer is hidden in the clues from the previous three stages...

FINAL TASK

- 1 Both players walk together to the open area at the centre of the lawn
- 2 Recall the runes you each saw across the three stages and discuss the correct order together
- 3 Arrange the three runes in order on your phones, both confirm simultaneously — the ending animation triggers

The fairy village is rebuilt on the lawn — Guardians, thank you!
