

The Guardian's Call

Two players. Separate routes. One shared adventure.

BRIEFING | READ BEFORE CHOOSING YOUR ROLES

A magic storm has scattered the power that protects the fairy village. Follow your own path, reunite to solve the stars, and restore the village together.

BEFORE YOU START

Bring two camera-equipped phones, the four AR markers, this booklet and the shared constellation sheet. Place markers at the pine tree, dead stump, left bench and right bench. Choose a safe meeting point near the benches and a final meeting point at the lawn centre.

YOUR ROUTES

PLAYER A | DETECTIVE

Pine tree (marker 1) > Left bench (marker 3)

PLAYER B | SCOUT

Dead stump (marker 2) > Right bench (marker 4)

HOW TO PLAY TOGETHER

- 1. Explore separately.** Choose different roles. Scan your starting marker, solve the direction task, and continue to your assigned bench.
- 2. Reunite for the stars.** Once both bench clues are open, meet nearby. Describe your clues first, then compare screens and the shared constellation sheet.
- 3. Agree, then submit.** Decide on one constellation name and type it on both phones. Wait for both players to succeed before moving on.
- 4. Finish at the lawn.** Meet at the lawn centre, recall your rune milestones on page 3, and arrange the runes on each phone.

ENERGY AND TEAM PROGRESS

Each phone starts with three energy stars. A wrong answer removes one star; if stars remain, wait for the on-screen countdown. If either player runs out, agree to restart together. Progress is separate on each phone: talk to confirm that both players are ready. Submissions do not need to be simultaneous.

Explore, Then Reunite

Scan AR marker images; use these cards as written instructions.

TASK CARDS | FOLLOW YOUR ROLE

PLAYER A | STAGE 1

The Ancient Tree's Secret

Go to the pine tree and scan marker 1. Read the on-screen evidence, select your direction, then follow the prompt to the LEFT bench. Scan marker 3 to open your star clue.

After both direction tasks are complete, record the **Leaf** milestone on page 3.

PLAYER B | STAGE 1

Memory of the Storm

Go to the dead stump and scan marker 2. Read the on-screen evidence about the storm, select your direction, then follow the prompt to the RIGHT bench. Scan marker 4 to open your star clue.

After both direction tasks are complete, record the **Leaf** milestone on page 3.

STAGE 2 | BOTH PLAYERS | THE SECRET OF THE STARS

Open both clues before meeting. Player A scans the left bench; Player B scans the right bench. Keep your clue open, then meet at your agreed nearby spot.

Share observations. Each player describes the star positions and brightness shown on their phone. Then look at the shared reference and, if helpful, each other's screens.

Compare the six candidates. Discuss which pattern fits both sets of observations. The names are answer choices; none is marked as correct.

Submit on both phones. Enter the same English constellation name. If one player is still solving or waiting for a countdown, the other waits too.

Record your reward. Once both phones show success, record the Crystal Ball milestone. Continue to the lawn centre for the final challenge.

SHARED-PLAY RULE

The printed rules allow joint viewing after both bench scans. Treat any on-screen instruction to describe positions as your first discussion step, not a ban on checking the reference together.

Restore the Village

Read the reward rules, then tick off each milestone together.

RUNE RULES | READ AT THE BRIEFING

The garden heals through three milestones: life returns, magic returns, and a home is ready. Read the reward rules now. Tick each box only after your team reaches that milestone; you may refer back during the finale.

LEAF | LIFE RETURNS

After BOTH players complete their starting direction tasks.

Record the leaf symbol shown as a green sprig in the game.

☐ Team milestone complete

CRYSTAL BALL | MAGIC RETURNS

After BOTH players solve the shared constellation puzzle.

Record the purple crystal-ball symbol used by the game.

☐ Team milestone complete

MUSHROOM | A HOME IS READY

When BOTH players reach the lawn centre for the finale.

Record the mushroom symbol, then begin the final ordering task.

☐ Team milestone complete

FINAL STAGE | LAWN CENTRE

Both players must be present. If the final puzzle has already opened on one phone, wait before submitting.

Arrange the three rune symbols in the order your team reached the milestones above. Each player enters the order on their own phone.

Confirm verbally before submitting. Celebrate once both phones show the victory screen.
